

GASOILA®

300-UR

URETHANE SEALANT

Description

A premium polyurethane based sealant. Gasoila 300-UR is a one-component, moisture cure polyurethane designed to meet the flexibility requirements of dynamically moving joints.

Uses

Dispensers, island forms, cracks in concrete, entry boot fittings, siding, expansion joints and much more.

Application

Surface Preparation

Surface must be clean, dry and free of contaminants that could result in poor adhesion. Priming is often not required.

Key Properties

- **One-Component**
- **Permanently Flexible**
- **Extended Life Expectancy**
- **Excellent Adhesion**
- **Waterproof**
- **Paintable**
- **ASTM C920 Class 25, Fed 230C Class A**
- **VOC Compliant**

ADHERES TO:

Masonry Glass
Concrete Plastic
Metal Aluminium
Plywood Steel

- **Weatherproof**
- **Excellent Adhesion**
- **Fast Cure Time**
- **Won't Crack or Peel**
