

# Sump Entry/Termination Fittings

---

NOV Fiber Glass Systems is the manufacturer of Red Thread® IIA pipe and fittings available in 2"-6" diameters. Red Thread IIA products are UL 971 Listed for all UL 971 identified fuels and applications. UL 971 is applicable to both UL and ULC. Product offerings include UL 971 Listed single or double wall sump entry/termination fittings.

Pumping out sumps can be costly to a service station owner. Why risk potential leaks when NOV Fiber Glass Systems has the **long-term solution** with the use of Red Thread IIA sump entry/termination fittings. Sump entry/termination fittings provide positive seal at the sump to help prevent leaking of underground fuel or other fluids in or out of the sump. The double wall fitting helps provide Class 1 (leak prevention) protection which complies with California's requirement for continuous interstitial monitoring of the piping system's secondary containment.
